

NOISE BARRIER

Sound Quality[®]
Architectural Products

APPLICATIONS

- ◆ Hotel/Motels
- ◆ New Construction
- ◆ Home Theaters
- ◆ Music Studios
- ◆ Homes, Apartments, Condos
- ◆ Strip Plaza

Sound Quality[®] Noise Barrier is a flexible noise barrier that is designed to stop the passage of sound through walls, ceilings and floors. Sound Quality Barriers come in a variety of models and sizes and are ideal for hotels, classrooms, homes, home theatres and any areas where reduction of noise transmission is necessary, with STC ratings up to 31.

ADVANTAGES

Sound Quality Noise Barrier is easily installed on walls, floors and ceilings. Complicated construction is unnecessary. Low cost solution for noise transmission problems.

AVAILABILITY

Sound Quality Noise Barrier is available in rolls 54" wide by 30' or 60' long, 270 sq. ft. per roll, with custom lengths available.

ACOUSTICAL DATA

CONSTRUCTION

Sound Quality Noise Barrier may be installed in conventional wall construction or in a staggered stud assemble for higher STC results.
